GIBS

The Biggest Contest in ASIA

www.icpsd.gibsbd.org

Dear Sir/Madam,

This is Dr Karim M Rezaul, a Professor of computing & communications Technology from London. It is my pleasure to inform you that we are going to host an **International Contest on Programming & Systems Development (SD) [ICPSD 2014]** which would be held at GreenTech Institute of Business & Science GIBS), Chittagong (http://gibsbd.org).

The Contest date: 28, 29 & 30 August 2014.

For details, please visit - **http://www.icpsd.gibsbd.org/impDates.html**

Invitation: On behalf of the Program Committee of ICPSD'14, I would like to invite your students to participate this international event. Could you please let me know your interest at your earliest convenience?

We would also highly appreciate if you could disseminate this information to the appropriate department/organisation - THANKS.

Mission: To promote technologies, academic excellence and technological events to the global community so that they could be more encouraged to learn, implement and utilize resources which would devise more pathways to entrepreneurs and organizations (institutes, business, societies etc.) and, thereby they might get motivated and reorganized towards rethinking of their business products, market segments and promotions.

Moreover, the ICPSD'14 aims to unite tomorrow's young programmers and systems developers at a common platform and inspire them to work together towards building global sustainable information systems.

ICONSE (www.incose.org), IET (http://www.theiet.org/), Computer Society of India (http://www.csi-india.org/),   PEARSON-EDEXCEL (http://www.edexcel.com/BTEC/Pages/default.aspx),   CARDS (http://www.glyndwr.ac.uk/CARDS/) & IPE management School Paris (http://www.ipe-paris.fr/ecole-commerce-en.html) have already sponsored, and other international associations, local & International Media, Business organisations and awarding organisations are expected to sponsor this International Contest.

Local and International Professors/Lecturers/Technicians/Researchers/Engineers/Programmers will join this event and conduct the Contest.

Target audiences/Participants: Undergraduate and Postgraduate students pursuing their courses in the field of EEE, Computer Science & Engineering, Computing, Software Engineering, Communications Technology, Information and systems engineering and relevant areas. Business organisations/firms (e.g. software firms, game developers, IT firms etc.) are also most welcome to participate this contest.

We are expecting at least 200 teams to participate in this contest where each team consists of 3 members.

Scope: Computer Science & Engineering, Computing, Software Engineering, Communications Technology, EEE, Information and Systems Engineering and other relevant areas.

Members of Judge Panel (JP) and Technical Program Committee (TPC):

http://www.icpsd.gibsbd.org/tpc.html <--- **TPC**

http://www.icpsd.gibsbd.org/judges.html <--- **Members in Judge Panel**

Publicity policy: The information would be disseminated-
Through Local and International educational institutions, awarding bodies/organisations
By Social media: Facebook, Twitter, LinkedIn, Youtube etc.
By at least 2 National newspapers on a weekly basis
By at least 3 national TV media during the Contest
By distributing posters and banners to the local universities/colleges

Guidelines on preparation/procedures for the contest:
http://www.icpsd.gibsbd.org/guide4cont.html

Award giving ceremony

Winning teams would be awarded for their further motivation, encouragement and betterment of the faculty in research, teamwork, creating professionalism and many more achievements. Award would be of certain amount of money (in USD) along with certificates of participation and certificates of achievement.

For details, please visit **http://www.icpsd.gibsbd.org/prize.html**

Pictures along with details of winning teams would be published in the ICPSD'14 website.

Judges will analyze on possible solutions of each problem on their respective speeches.

After Contest:

CALL for Systems' Solution

The project Team members from different location of the world are required to send their Solutions along with a report/documentation (up to 25 pages) within THREE weeks to the program committee.

Publication of the Contest proceedings

Modified versions (along with a report/documentation) of **the Best FORTY (40~50) projects** will be appeared in the proceedings of International Contest on Programming & Systems Development 2014, published by a renowned publisher [e.g. Curran Associates inc. (www.proceedings.com)].

Publication of BOOK Chapters in a BOOK

Extended versions of TOP 20~25 projects from the proceedings will appear as book chapters in a BOOK, published by a renowned publisher (e.g. Pearson, Elsevier, Cengage, McGraw-Hill, and Springer).

We highly appreciate your kind support and cooperation.

Hope to hear from you soon.

Best wishes....

Dr. Karim Mohammed Rezaul, BSc Engg., MSc Tech., PhD, MIEEE, MACM
