

CodeCrafters-Investortools Research Grant

CodeCrafters is pleased to offer “**CodeCrafters-Investortools Research Grant**” for the postgraduate students of Bangladesh University of Engineering and Technology (BUET). This grant will be provided for Master/PhD level research paper presentation overseas in the areas of algorithm, intelligent computation, software engineering, network science, data science, artificial intelligence, machine learning, and related fields.

BUET has been the leading university in Bangladesh in engineering and technology for more than six decades. It has highly skilled manpower in diverse disciplines of engineering and sciences. Alongside teaching and research, BUET is contributing to national projects providing intellectual inputs, consultation and top supervision services as a part of its social responsibility. To be on par with globally reputed universities BUET is currently striving to achieve research and innovation excellence.

CodeCrafters is a reputed software company and one of the best employers in the country in the software sector. The development team is based in Dhaka, Bangladesh with a U.S.-based sales and support team. CodeCrafters has over 20 years of experience in designing and developing large-scale enterprise software.

In 2012, CodeCrafters along with Investortools Inc., our partner company, established this program to fund research grants. We believe that Bangladesh has the potential to become a major player in the software development industry. We have a vision to see continued growth both in the academic field as well as in the professional software community. Through this grant and through other similar initiatives, we seek to do our part in bringing this vision to fruition.

Guidelines

Multiple research grants are available per year. A research grant:

- Includes travel grants to present papers in conferences and workshops in foreign countries.
- Is applicable to papers in the relevant areas: algorithm, intelligent computation, software engineering, network science, data science, artificial intelligence, machine learning, and related.
- Is up to BDT 100,000 (One hundred thousand) per application.
- Requires pre-approval by CodeCrafters.

Application Procedure

- The grant must be approved by CodeCrafters before the paper presentation.
- Reach out to BusinessServices@codecraftersintl.com via email with a subject line “Application for CodeCrafters-Investortools Research Grant” for detailed application procedure and related application forms.
 - Application must be signed by the recommender.
 - Application must be forwarded by the Head of the Department of Computer Science and Engineering.
 - A scanned copy of the application form must be sent to CodeCrafters for approval
 - A scanned copy of the application form must be sent to CodeCrafters for approval.
- Document Submission:
 - If approved, submit the receipts and other expense related documents once the event is over.
 - Submit the original copy of the application.
- Reimbursement: The approved amount will be imbursed to the applicant.
