

Dear Students,

I am pleased to invite you to Huawei Bangladesh 2019 **“Seeds for the Future”**, the flagship CSR program of Huawei, which is designed to develop local ICT talent, enhance the transfer of knowledge, and prove Huawei as a corporate socially responsible integrated brand to improve the digital community.

Initiated in 2008, the program seeks to develop local ICT talents, enhance knowledge transfer, promote a greater understanding of the telecommunications & ICT sector, and improve participation in the digital community. Up to the end of 2017, the Seeds for the Future program has been implemented in 108 countries and regions. Through this program, a total of 3,600 top students have been able to visit and receive training at Huawei's headquarters in China.

The Seeds for the Future program was launched in Bangladesh in 2014. To help Bangladesh realize the Vision **“Digital Bangladesh 2021”**, Huawei has worked intensively to select outstanding students to participate in the program.

In 2019, we are more than happy to announce the participation of BUET CSE department (final year students) alongside 4 other engineering universities.

After the selection, 2 talented youth will visit China for two weeks for cultural exchange and practical experience, starting from 14th April 2019.

The selection round will be held on:

Date: 27th February 2019, Wednesday

Time: 10:00 am

Venue: IAC Seminar Room, CSE, BUET (Ground floor)
