Why Should You Consider a Cyber Security Career?

Speaker: S M Sohan

Senior Manager of Software Engineering, Cisco Security

Sohan works as a senior manager of software engineering at Cisco Security. His team works on Cisco AMP, an Endpoint Detection and Response product that secures high-value digital assets of thousands of organizations and millions of connected devices. Prior to joining Cisco, Sohan worked as a principal software engineer at Sourcefire. Before that, he was a senior consultant at ThoughtWorks.

Sohan completed his PhD in CS from the University of Calgary and his BS in CSE from BUET. He lives in Canada with his wife and two children. He shares his thoughts at https://smsohan.com and can be reached at @smsohan on Twitter.

Abstract

I am not a cyber security expert or a hacker per se. But, how is it that I have a fulfilling career in cyber security? This is because, in our modern digital world, the cyber security landscape is vast and has opportunities for anyone with a curios mind. In this talk, I'll share the story of a large scale cyber attack from the recent past. Through this story, I'll introduce examples of cyber security roles. Curious students and graduates will be able to use the information shared in this talk to consider a future career in cyber security.

When: Wednesday, 17th June, 2020 (8:00 PM)
Where: Online. Zoom Meeting ID: 657 1451 5824, Password: 009152
Organized by BUET ACM Chapter, Dept. of CSE, BUET.
